K-PAX Immune Support Protein Blend

Product Information and Instructions

K-PAX Protein Blend is a professional quality nutritional supplement intended for use as aggressive nutritional support. Conditions that may benefit from aggressive nutritional support include:*

Cancer

HIV/AIDS

Chronic Hepatitis

Frequent Infections

Chronic Fatigue Syndrome

Mixing Instructions

Mix in water. Shake vigorously in a closed container for 10 seconds. You may also add K-PAX Protein Blend to your favorite juice or blender drink. If weight under 120 lbs, use 1 scoop 2X/day. If weight over 120 lbs, use 2 scoops 2X/day. Enjoy!

Sample Prescription

(For physicians only)

K-PAX Protein Blend (Code B4155)

Dispense 4 containers (> 120 lbs)
Dispense 2 containers (< 120 lbs)

SIG: 2 scoops bid in water (> 120 lbs)
1 scoop bid in water (< 120 lbs)
Refills: 5

1. 100% Brown Rice Protein

Our brown rice protein is the first rice protein to take advantage of the whole grain rice kernel using the nutrients in both the bran and endosperm layers. It is a complete protein containing all 9 essential amino acids plus 10 non-essential amino acids. Rice protein is the most easily digestible and hypoallergenic of all protein supplements. It is very low in factors causing flatulence and is suitable for vegan diets.

2. K-PAX Immune Support Micronutrients

The micronutrient formula included in K-PAX Protein Blend has been clinically tested for over 10 years and was recently shown in a placebo-controlled research trial to increase the strength of the immune system in people with HIV/AIDS. These micronutrients are pharmaceutical-grade quality and are not mixed with any fillers, binders, or additives of any kind.

3. New Raspberry Lemonade Flavor

K-PAX Protein Blend now mixes easily with just water and provides a refreshing, nutritious way to gain muscle mass and support immune function. You may also add K-PAX Protein Blend to your favorite blender drink!
